Organizations such as the US Marine Corp, US Air Force & the US Olympic Training facility trust us for their Health, Fitness & Therapy equipment needs because of our instructive communications process, inventive equipment and our life time guarantee.

WE PROVIDE

- **Sourcing:** Health, Fitness and **Therapy** Equipment with live streaming video training routines and procedures
- Provide cutting edge patented far infrared heated FitSauna that provides live stream coaching to expedite Healing benefits,
- Produce, categorize and organize video training channels specifically for use by VA for disabled veterans
- We provide effective treatment for PTSD, healing and powerful (FDA approved) pain relief among other benefits
- We produce 100's of live streaming videos featuring complete therapy, fitness, martial arts, yoga and other training channels
- Wi-Fi enabled streaming video allows you to go from hot yoga to intense resistance training in 2-seconds

DIFFERENTIATORS

- One of a kind, high quality, patented tools that provide state-of-the-art health, fitness and therapeutic benefits.
- Focus is on health, fitness and therapy, supplying facilities with equipment, educating and training end-users and creating beneficial, customized instruction for predictable, ongoing results for each user and facility according to space and needs.
- Prior to initiation, an assessment of the total project for health, fitness and/or therapeutic needs is performed. The next step includes recommendations for appropriate tools that assure individuals reach desired health, fitness or therapy goals.
- Experienced team members participate in initial and continued guidance and education to produce optimal results.
